

Conservation Areas Workshop

October 24-26, 2011

Geneva Park, Orillia

Best Practices...
Best Shared!

Call For Presentations

It's time to *Share Best Practices!*

Best Practices are known as generally-accepted, informally-standardized techniques, methods, or processes that have proven themselves over time to accomplish given tasks.

The idea of *Best Shared* can be defined as two or more people or organizations working together to share information.

The **2011 Conservation Areas Workshop** will be dedicated to sharing Best Practices on a variety of topics.

Has your Authority developed specific protocols or techniques related to how you plan, operate or manage your Conservation Areas?

Do you know of a like minded organization that has some interesting Best Practice methods?

It could be a well developed risk management program, a staff training program, a land acquisition guideline, or a specific maintenance program.

We need your Best Practice presentation ideas to help develop a well rounded program for 2011!

Submit Presentation
Suggestions To:

**Conservation Areas
Workshop Committee**

workshop@conservationontario.ca

What to include:

Please provide a short description of what you are suggesting as a presentation and/or names of possible presenters.

When?

Please send your submissions no later than **April 22nd, 2011**.

Pass it on!

Please ensure that you forward this request to your coworkers.
